Roadmap for the implementation of the Construction Products Regulation (CPR)

Last update – 11 November 2023

The CPR⁽¹⁾ mandates the Commission to report to the European Parliament (EP) and to the Council on different aspects of the implementation of the regulation. The following chapters provide an overview on the tasks which the Commission intends to undertake for the implementation of the CPR and the list of tasks already performed. The list includes:

1. Delegated acts	1
2. Implementing act	6
3. Reports on the implementation of the CPR	6
4. Standardisation requests	8

1. Delegated acts

The delegated acts included in this chapter are related to the following CPR provisions:

- Amendment of annexes – Art. 60(e)
- Conditions on making available the DoP on a website – Art. 7 and 60(b)
- The establishment of classifications – Art. 27(1) and 60(f)
- Conditions for the deemed to satisfy performance without testing or without further testing (CWT-CWFT) – Art. 27(5) and 60(g)
- The adoption of AVCP systems – Art. 28 and 60(h)

Delegated acts are ordered by date starting by the most recent. The table include information about the stage of the process according to the following criteria:

4. Standardisation requests

Implementation of the CPR includes the development of standardisation requests for the development of harmonised standards. The preparatory work is assisted by the Expert Group on CPR Technical Acquis process. The formal procedure follows Regulation (EU) No 1025/2012 on European Standardisation and requires the adoption of the standardisation request as implemented acts following the comitology procedure. The Committee dealing with these implementing acts is the European Committee for Standardisation (usually called Committee on Standards or CoS).

The standardisation requests included in this chapter are related to Art. 17 of the CPR and to Art. 10 and 22(3) of the Standardisation Regulation.

Standardisation requests are ordered by date starting with the most recent. The table include information about the stage of the process according to the following criteria:

Situation	Stage	Date
Preparatory work (draft under development by the CPR acquis expert group)		Expected date for the final outcome of the CPR acquis process
Presentation of the intention to draft the standardisation requests	 	Date of the communication to the Committee on Standards
